Typography 2
You will design UI of a new mobile weather app.
Create typographic hierarchy with the following set of rules:

- Use Verdana as typeface
- Use scale
- Use **weight**
- You may use rotation of text
- Background is white and figure is black
- No gray scale (only black or white)
- No images/photos/illustrations
- No italics
- Screen size is 750 × 1334px
- Use all the copy below:

February 23, 2015
Berkeley, CA 94720
Monday Clear
Precipitation: 0%
Humidity: 62%
Wind: 7mph
68°F
Tuesday 64
Wednesday 64
Thursday 66
Friday 66
Version 1

Typographic Hierarchy

Version 1 should focus on typographic hierarchy (i.e., help a user understand information through a logical and meaningful journey).

In terms of weight, the number is the part I would like to strengthen, so I put weight on all the numbers.
Version 2 in contrast, should play with possible emotional aspects of interaction with a weather app (e.g., funny, nostalgic, angry, etc.). You are free to interpret the possible emotional aspects. However, the same rules apply to this version. You should use the same emotion you used for Type 1.

A happy, lifting feeling is the emotion I want to communicate through the design.
